Orientation Quick Start Guide Video

# Peer Mentoring

During First Year Orientation, peer mentors help create a welcoming and supportive environment where first-year students can socialise, connect with peers, and receive informal support, with further information available at the QR code below.

# Support for Students with Disabilities

If a student is seeking additional support, they must register with the Disability Office by completing the online Student Services Needs Assessment form and provide appropriate documentation to access additional supports. Students will then be contacted to arrange an appointment after completing the Needs Assessment form, with all disclosed information treated in the strictest confidence. Supports provided to a student are tailored to a student's individual needs such as a separate exam venue, extra time to complete exams, learning support etc. Please see the QR code below for further information.

Please see the QR code below for further information.
