

Lucy Kate Bosch SETUSU Nominee

First Term 2025-2026

Skills, Experience and Qualifications.

Elected as SETU Students' Union President for the Academic Year 2025/26 where I am honoured to represent the students of Waterford campus in SETU.

As the Welfare officer of this Students' Union I am mandated to represent the voices of students across all campuses in Waterford. In this role I am committed to representing all students as a collective, and ensuring that the student voice is effectively heard in discussions that directly impact them.

I come from a Law background having completed an undergraduate degree in Criminal Justice Studies. During my studies I was a member of many student societies, many of which fostered a large interest in open communication and collaboration with students.

While in this position I aim to make sure student voices are heard and they are given the opportunity to change things within the university not just at the base level but also as a whole.
