- Joint Quality Committee (Chair)

Skills and experience

Pauline Oakes is currently Vice President, Operations, EMEA/APAC region for Integer. In this role, she oversees all operations in the region spanning four manufacturing plants and responsibility for approximately 2,000 associates. She joined Integer in 2019 and brings more than 27 years of medical device industry experience to the company.

Prior to joining Integer, Pauline held various roles of increasing responsibility in areas spanning site leadership, operations, supply chain and IT with companies including Becton Dickinson, Bard, Clearstream Technologies and AngioDynamics. Throughout her career, she has honed her change management, cross-functional leadership, strategy development and continuous improvement skills through involvement in a varied range of corporate development phases, from start-ups, buy-outs, launches, and acquisitions, each requiring different leadership skills and approaches.

Qualifications

Pauline holds a BA in Computer Science and Economics from University College Cork.

Board memberships

Pauline is also a board member of Greentech HQ and Irish Medtech Association (IMDA).
