

BYRNE CUSTOM JOINERY

Graduate Quantity Surveyor / Junior Estimator

Ballyadams, County Laois

Byrne Custom Joinery is a family-run specialist joinery manufacturing company with over 45 years' experience delivering high-end bespoke joinery and fitted furniture packages across hospitality, commercial, healthcare, pharma and office projects throughout Ireland and the UK.

The Role

We are seeking a Graduate Quantity Surveyor / Junior Estimator to join our commercial team. The successful candidate will work alongside our Senior Estimator and will be trained in the estimating and procurement of bespoke joinery projects. This is a full-time, permanent, in-person role based at our workshop and offices in County Laois.

Key Responsibility

- Measurement and take-offs from architectural and specialist joinery drawings
- Assisting with bills of quantities and cost build-ups
- Pricing bespoke joinery elements and specialist materials
- Supporting preparation of tender submissions
- Assisting with sourcing and managing specialist suppliers
- Requesting, reviewing and comparing supplier quotations
- Maintaining supplier pricing and lead-time information
- Supporting tender queries and clarifications
- Assisting with value engineering and alternative proposals
- Supporting handover of awarded projects to the design and production teams
- Assisting with pricing variations and revisions

Key Requirements

- Final-year students or recent graduates in Quantity Surveying, Construction Management, Architectural Technology or related disciplines
- Candidates with strong numerical skills and attention to detail
- Individuals interested in the commercial and manufacturing aspects of construction
- Candidates comfortable working with drawings and Excel
- Previous experience in construction or joinery is an advantage but not essential.
- A full clean driving licence is required.
