1

Vacancy Type

Graduate Programme/Internship

Duties of Position**Key Responsibilities**

- Prepare and compile estimates for a range of mechanical systems, ensuring they are developed into complete packages.
- Support cost planning and budgeting activities, with consideration of project programmes and delivery requirements.
- Assist with the commercial management of projects from award stage through to delivery.
- Coordinate with the supply chain to review, agree and package subcontractor and supplier works.
- Prepare variations and valuations, and issue them in a clear, professional manner when engaging with clients, contractors and project stakeholders.
- Report and present the commercial position of live projects to the Board of Management in a clear, concise and structured format.

Essential Requirements

- A degree in Quantity Surveying, or an equivalent relevant qualification.
- Strong commercial and contractual awareness.
- Proficiency in Microsoft Office, with strong working knowledge of Microsoft Excel.
- Experience using estimating software such as Cubit or Trimble would be an advantage but is not

essential.

- The role will be primarily office-based, with site visits nationwide as required, depending on current project requirements.
