

Junior Technical Operations & Service Technician

CORENEX

Full-time · Limerick-based · Field/workshop role

LOCATION

Limerick, Ireland

SALARY

€34,000–€40,000 DOE

PROGRESSION

To Field Service Engineer

ABOUT THE ROLE

Corenex supplies cleaning, hygiene and equipment systems to Irish commercial operators. We are seeking a practical, technically minded individual to join our engineering team.

This role combines technical operations, workshop support and customer field service. The successful candidate will work alongside experienced engineers while developing the skills required to become a Field Service Engineer.

KEY RESPONSIBILITIES

- Prepare and test equipment before installation.
- Assist with servicing, repairs and refurbishment of commercial equipment.
- Support equipment installations at customer sites.
- Carry out preventative maintenance.
- Attend routine service call-outs.
- Organise technical equipment, spare parts and inventory.
- Complete service reports and technical documentation.

WHAT WE OFFER

- Competitive salary (€34,000–€40,000 DOE).
- Full technical training.
- Hands-on experience across workshop and field service.
- Opportunity to develop into a Field Service Engineer.
- Long-term career progression.

CANDIDATE PROFILE

Applications are welcomed from candidates with experience or qualifications in:

Electro-Mechanical Engineering

Electrical Engineering

Mechanical Engineering

Mechatronics

Industrial Maintenance

Engineering Apprenticeships

Recent graduates and final-year engineering students are encouraged to apply.

Applicants should be:

- Mechanically and/or electrically minded.
- Practical with good problem-solving skills.
- Reliable and organised.
- Willing to learn.
- Comfortable working independently and within a team.
- Holders of a full driving licence preferred.
