Tour Guide

A

Tourism and Leisure Building

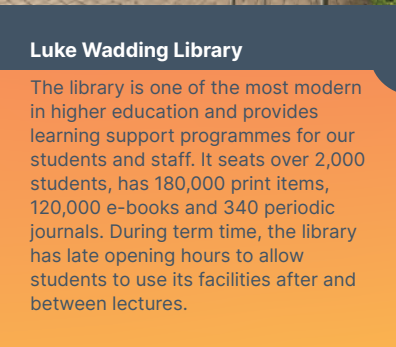

This state-of-the-art building is home to culinary arts, hospitality and tourism, arts, languages, sport and exercise students. It's fully equipped with modern teaching kitchens, fine dining restaurant, training bar, Human Performance Lab and a small gym. The building houses the Office of the President along with Finance and HR.

B

Main Building

The Registrar's office, international office, careers centre and education and lifelong learning office are on the ground floor as well as Centra and Frank and Honest barista bar. On the first floor is the Built Environment, Engineering Technology, Science labs and offices and the Technology Gateway research centre PMBRC.

Luke Wadding Library

The library is one of the most modern in higher education and provides learning support programmes for our students and staff. It seats over 2,000 students, has 180,000 print items, 120,000 e-books and 340 periodic journals. During term time, the library has late opening hours to allow students to use its facilities after and between lectures.

C

Faculty of Business

This is home for the Faculty of Business including its student facilities and research centres. In addition, some of our biggest lecture halls are located on the ground floor along with the Student Life and Learning offices. Two new state-of-the-art labs for business students (Digital Marketing, and Finance and BIS), and some labs for computing students are located on the first floor.

D

O'Connell Bianconi Building

SETU's health sciences building is home to students and staff on general, psychiatric, intellectual disability nursing programmes and applied health care and health promotion courses. The offices of the majority of SETU Waterford's Faculty of Health Science lecturers are located here.

E

Walton IT Building

This building was named after Ernest TS Walton and opened in 2003. Students studying on courses in the Faculty of Computing and Mathematics will spend most of their time here. The impressive building holds 18 large computer labs including recently updated Mac labs. Computer Services and the Research Support Unit are also located in this building.

F

SETUSU Social

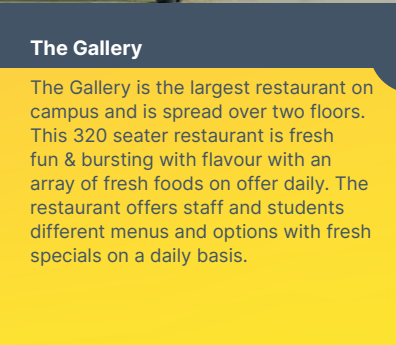

The offices of SETU's Students' Union are located here. The Students' Union team are current or past students voted for by students to represent the students. SETUSU Social provides printing and binding facilities and acts as an area where students can go between class times to chat, relax or play video games.

7

Campus Accommodation

College campus is our most popular college accommodation consisting of 69 single ensuite rooms, 3 of which have wheelchair access. It includes Wi-Fi, residents parking, laundry facility, 24-hour security, CCTV and a live-in warden. Our second, larger accommodation is closer to the city centre called City Campus. www.setu.ie/accommodation

The Gallery

The Gallery is the largest restaurant on campus and is spread over two floors. This 320 seater restaurant is fresh fun & bursting with flavour with an array of fresh foods on offer daily. The restaurant offers staff and students different menus and options with fresh specials on a daily basis.

1

FTG Building

The FTG building is a home to our Arts and Psychology students, and many of the staff offices for these courses are based here, including a small Humanities school office, a psychology lab and dissertation room. The Moodle office, the Maths Learning Centre and Calmast are also located in this building.

11

Applied Technology Campus

The Applied Technology campus is located just beside the Cork Road campus, in the industrial estate. The AT building is home to SEAM, one of SETU's Technology Gateway research centre as well as some postgraduate business offices and our trades students who study plumbing, motor mechanic, electrical engineering. The building also has a small canteen.
