Welcome

As President of South East Technological University, I am delighted to introduce you to the part time and flexible programmes on offer for the 2023/2024 academic year.

Our mission is to deliver inclusive education and high-quality research that drives innovation and delivers impact. SETU is an international, entrepreneurial and connected multi-campus Technological University that drives sustainable economic, environmental, cultural and social development in the south east of Ireland. SETU offers a student-centred education and is committed to lifelong learning, access, equality and inclusion, and to the provision of a comprehensive educational offering. Our curriculum is research-led and applied to social, environmental, cultural and enterprise needs and our research will have impact for the region, nationally and internationally. SETU works in support of student and staff success and foster a collegiate environment for all.

Across lifelong learning we have onsite delivery across our campuses in Carlow, Waterford, Wexford and Wicklow. We also offer hybrid (a mix of on-site and online) and fully online courses leading to higher education awards from Level 6 to Level 10

Fáilte

Mar Uachtarán ar Ollscoil Teicneolaíochta an Oirdheiscirt, tá an-áthas orm tú a chur ar an eolas faoi na clár pháirtaimseartha agus sholúbtha atá ar fáil don bhliain acadúil 2023/2024.

Is é an misean atá againn ná oideachas cuimsitheach agus taighde ardchaighdeán a sholáthar a spreagann nuálaíocht agus a sheachadann tionchar. Is Ollscoil Teicneolaíochta ilchampsais idirnáisiúnta, fiontraíochta agus nasctha í SETU a chuireann forbairt inbhuanaithe eacnamaíoch, comhshaoil, chultúrtha agus shóisialta chun cinn in oirdheisceart na hÉireann. Cuireann SETU oideachas a chuireann an mac léinn sa chroílár ar fáil agus tá sí tiomanta don fhoghlaim ar feadh an tsaoil, do rochtain, do chomhionannas agus d' ionchuimsiú, agus do thairiscint chuimsitheach oideachais a sholáthar. Tá ár gcuraclam á threorú ag taighde agus cuirtear i bhfeidhm é chun freastal ar riachtanais shóisialta, chomhshaoil, chultúrtha agus fiontraíochta. Beidh tionchar ag ár dtaighde ar an réigiún, go náisiúnta agus go hidirnáisiúnta. Oibríonn SETU chun rath na mac léinn agus na foirne a chur chun cinn agus chun timpeallacht choláisteach a chothú do chách.

Don bhfoghlaim ar feadh an tsaoil tá seachadadh ar an láthair againn ar fud ár gcampas i gCeatharlach, i bPort Láirge, i Loch Garman agus i gCill Mhantáin. Cuirimid cúrsaí hibrideacha ar fáil freisin (meascán de chúrsaí ar an láthair agus ar líne) agus cúrsaí

on the National Framework of Qualifications. These include certificates, degrees, honours degrees, higher diplomas, postgraduate diplomas, master's degrees, minor and special purpose awards across a range of disciplines.

Flexible and Online Learning is really important in SETU. It's something that we do very well, and something that is hugely beneficial for learners in a whole range of ways.

The value of lifelong learning has never been more relevant as sectors change and adapt to developments in technology and sustainability. SETU's huge range of part-time and flexible courses are designed with extensive input from business and industry experts and social, community and cultural partners. Studying with us will enhance your employability and career development prospects.

My very best wishes to you as you embark on, or continue with, your lifelong learning journey.

Welcome to our SETU community.

Professor Veronica Campbell
SETU President

go hiomlán ar líne as a leanann dámhachtainí ardoideachais idir Leibhéal 6 agus Leibhéal 10 ar an gCreat Náisiúnta Cáilíochtaí. Áirítear orthu seo teastais, céimeanna, céimeanna onóracha, ard-diplómaí, diplómaí iarchéime, céimeanna máistreacht, miondámhachtainí agus dámhachtainí sainchuspóra i réimse mhór disciplíní.

Tá Foghlaim Sholúbtha agus Ar Líne fíorthábhachtach in SETU. Is rud é a dhéanaimid go han-mhaith, agus rud atá thar a bheith tairbheach d'fhoghlaimoirí ar an iliomad slite.

Tá luach na foghlama ar feadh an tsaoil níos ábhartha ná riamh de réir mar atá earnálacha ag athrú agus ag oiriúnú d'fhorbairtí teicneolaíochta agus inbhuanaitheachta. Tá réimse ollmhór cúrsaí páirtaimseartha agus solúbtha SETU deartha le rannchuidiú fairsing ó shaineolaithe gnó agus tionscail agus ó chomhpháirtithe sóisialta, pobail agus cultúrtha. Trí staidéar a dhéanamh linne cuirfidh tú le d'infhostaitheacht agus le d'ionchas do gairmréim a chur chun cinn.

Guím gach rath ort cibé acu ag tabhairt faoi do thuras foghlama ar feadh an tsaoil nó ag leanúint ar aghaidh leis atá tú.

Fáilte go dtí pobal SETU.

An tOllamh Veronica Campbell

Our Campuses

Lifelong Learning at South East Technological University

WATERFORD

Cork Road Campus

SETU's Cork Road campus is located approximately 3km from Waterford city centre. Courses offered here are distributed across six academic disciplines: business, education and lifelong learning, engineering, health sciences, humanities, science and computing. Campus buildings include Luke Wadding Library; Walton Information Technology; O'Connell Bianconi Health Sciences; and the state-of-the-art Tourism and Leisure Building.

College Street Campus

The second largest campus in Waterford is located at College Street and has a site area of approximately 7.5 acres. Home to the School of Humanities, this campus offers a wide spectrum of full-time undergraduate courses including Law and Criminal Justice, Social Care and Early Childhood Studies, and Creative and Performing Arts.

West Campus

The West Campus is a 170 acre campus located in Carriganore on the outskirts of Waterford city.

Home to the Walton Institute, ArcLabs Research and Innovation Centre, National Biodiversity Centre, Nutrition Research Centre Ireland (NCRI) and Carriganore House. The West Campus is a centre for innovation, entrepreneurship and research. Also, located on the West Campus is SETU Arena, a multi-purpose sports arena.

Applied Technology Campus

The Applied Technology buildings are located at Waterford's IDA Industrial Estate. Occupying several units within the industrial complex this facility is utilised for the delivery of undergraduate engineering laboratories, trade skills initiatives and teaching.

Granary Campus

Granary campus, located in the Cultural Quarter of Waterford city is a dedicated campus for over 300 students undertaking courses in architecture, architectural technology and building information modelling (BIM) technology.

Cork Road Campus, Waterford

CARLOW CAMPUS

SETU's Carlow campus is located in the town of Carlow, which has a hinterland of beautiful villages and towns from another age. With Carlow located at the centre of the south east region, many of our students come from the surrounding counties of Wexford, Kilkenny, Laois, Kildare and Wicklow. The campus is also convenient to all the major entry points into Ireland with Dublin city just 85km away. Dublin Airport is a distance of 97km and Rosslare Europort is 92km from Carlow town centre.

The University campus is a short walk into Carlow town, which has a population of just over 24,000 and is home to several international businesses that offer both work experience and employment to the students and graduates. For thousands of students, Carlow is the place where their journey begins. Whether it is a course in business, law, humanities, science, sport or engineering, you will find all the support and encouragement you need to achieve your goals.

Campus buildings include: the Houghton Building for Teaching and Learning; Centre for Aerospace Engineering, Dargan Centre for Research and Innovation and the Student Services Building.

South Sports Campus

South Sports Campus is a 31 acre multi-purpose sports complex located 1km from the University's Kilkenny Road Campus. In 2021, phase two of South Sports Campus was completed and the facility hosts major regional and national events.

Kilkenny Road Campus, Carlow

Our Campuses

Lifelong Learning at South East Technological University

WEXFORD CAMPUS

SETU's Wexford Campus is located across two sites in Wexford town. The principal campus on Summerhill Road is based in the former seminary building, surrounded by vast grounds and a gorgeous view of both town and sea.

The seminary was founded in 1811 and moved to Summerhill in 1819 as St Peter's College. Wexford Campus has been based in and operational from this building for over 25 years having first opened in 1995.

A comprehensive suite of part-time courses are on offer at the campus through Lifelong Learning, that range from NFQ level 6 to 9 including early-childhood education, business and digital media.

WICKLOW CAMPUS

SETU's Wicklow County Campus is located at Clermont House, Rathnew, Co. Wicklow. The house is an early Georgian structure (c.1730). The main buildings were converted to school use in the 1950s when the property ran as a private boarding school until it was purchased by Wicklow County Council in 2005.

SETU's Lifelong Learning offers courses at the campus ranging from NFQ levels 6 to 9 across disciplines such as business, science, and humanities.

Wicklow Campus, Clermont House, Rathnew, Co. Wicklow

Student Stories

Tara Hanneffy

Higher Diploma in Digital Marketing Analytics

"I graduated with an English Literature degree just before the start of the pandemic. I was working as a retail supervisor

and I had wanted to transition to a career in Marketing for while. I came across the Springboard+ course on social media and knew this was the perfect way to equip myself with the knowledge I needed to kick-start my career. I chose this course because it offered the perfect blend of traditional marketing theory and practical classes to demonstrate the skills needed to be a Digital Marketer.

I chose Lifelong Learning's Carlow Campus because I wanted to study close to home. I chose a Lifelong Learning course because I needed one that was offered in the evenings and on the weekends so that I could work and study at the same time. I also appreciated that Lifelong Learning are focused on helping adults to upskill in line with industry trends and the job market.

While I have studied at third level before, this was a completely difference experience because Marketing was an area I had no experience in, and therefore I was starting from scratch! I really enjoyed the small class sizes and I was very pleased with how engaged the lecturers were. I had some fantastic

lecturers whose passion for their subject was really evident through their teaching. I also appreciated how the lecturers brought their industry experience to the classroom, providing invaluable insights into what it's like to work in Marketing.

Within a month of finishing the course I had secured a new job as a Marketing Executive. This course has been invaluable to me in my new role – one aspect of the course that I particularly liked was how practical it was. Many of the assignments involved completing real world Marketing tasks, for example setting up a website, creating content plans and marketing strategies. This equipped me with a bank of very valuable skills that I could bring with me to the workplace.

The course has already changed my employment prospects in that I secured a new job in Marketing. I feel that the course has given me a fantastic base with which to develop my career as a Marketer. Deciding to take on a part-time course was one of the best decisions I have ever made. It not only allowed me to achieve a complete change of career and the confidence to work in a whole new industry, but I feel it really gave me an edge in a competitive job market and a great opportunity to learn new skills and develop my knowledge. The course was well tailored to industry needs and provided great scope to develop key industry competencies. I found that was really advantageous as I started my career.

Keith Worley

Postgraduate Diploma in Teaching in Further Education

Prior to completing the course, I worked in the field of social care and provided staff with therapeutic crisis intervention training.

The Post Graduate Diploma offered me a new career path. Returning to education as a mature student one full day a week; allowed me to juggle family life, work life and education.

It highlighted and developed my transferable skill set to utilise in my teaching practice. The course, as a whole, offered me the opportunity to learn from my fellow students and the lecturers. The modules covered all the practices required in the profession.

The course offered me the opportunity to evaluate my practice and the practice of teaching across the various positions in the further education sector. Those delivering and running the course were aware of the demands external to the classroom and took these into account when dealing with the group.

The course was not without stress (assignments, due dates, portfolios and group work) but it was a collaborative experience and one that I thoroughly enjoyed.

Professionally, the course allowed me to interpersonally communicate and form working relationships with many teachers/tutors with vast experience, which enhanced my teaching practice. The difference in my personal life is night and day.

Patricia Rochford

Master of Business

Returning to education as a mature student with a young family and working in full-time employment brought a variety of challenges and rewards.

What felt like a daunting undertaking resulted in one of the most rewarding experiences of my life.

From the moment I started the course I felt the support from my lecturers was second-to-none. Each lecturer was encouraging and supportive throughout and the feeling of achievement at the finished result made it all very worthwhile. I look back on my time in Lifelong Learning with nothing but fond memories and encourage anyone interested in returning to third level education to take the plunge.

Student Stories

Michelle Deveney

Higher Diploma in Business Systems Analysis

The Higher Diploma in Business Systems Analysis was instrumental in my career progression to a Business Systems Analyst role with a leading

logistics company in the South East. I wasn't originally from an information and communications technology background in terms of my primary degree and this conversion course successfully allowed me to build a wide range of IT skills including software development, database development, enterprise applications, coding, web development and data analytics which helped to forge my new career.

I am now a more effective analyst and project manager having improved my skills in the IT environment e.g., being able to apply the Software Development Life Cycle, analysing business requirements, mapping processes and applying different project methodologies.

The course includes significant focus on the practical application of ICT. Many of the assessments were scenario based e.g., acting like a business for mapping/using systems/producing KPI dashboards. Similarly the college provided proactive support around the work placement elements where we got to apply our knowledge. This made the theory relevant and provided us with an opportunity to create a portfolio of work examples that proved invaluable in converting to a new career.

Fiona Horan

Bachelor of Arts (Hons) in Early Childhood Education and Care

I found the (BA Hons) Early Childhood Education and Care degree tough but so enjoyable - I had finished school 20 years earlier

but did a level 5 course two-years prior to my degree. If you study something that you're interested in and passionate about, it makes it easier. Also, the support from my family was essential. If you have both - support from family and a passion for what you're studying - you're halfway there!

When I got the opportunity to study for a Masters, I was delighted. I knew from my undergraduate degree that it would be a strong course and there would be support from Lifelong Learning if I needed it.

I would recommend returning to part-time education to anyone who feels they missed out earlier in life or they haven't achieved their potential, or simply wants a better life for their family. Do it now, this is as good a time as any!

Eamon Lacey

Certificate in Adult Literary Studies

My name is Eamon Lacey. I am from Portlaw and have lived in Clonmel for the last forty years where I work as a journalist with The Nationalist

newspaper.

I signed up to a Certificate in Adult Literary Studies as a new entrant. I took on the course because I had an interest in studying how to help a person with literacy needs, particularly people from other countries who came to Ireland with poor English.

Having returned to education after over forty years I was greatly encouraged by the positive learning environment created by my tutors Dr Eleanor Neff and Geraldine Mernagh. The module content was interesting and challenging. There was a great learning dynamic in the class because of the discourse generated by the experienced practitioners in education that were in our learning group.

Studying such issues enabled me to conduct interviews in my role as a journalist with a more nuanced perspective, which in turn enabled me to write more meaningful and insightful articles.

I am looking forward to completing the course. I am in the process of identifying another course to start next September so that I can build on what I have learned.

SETU's Commitment to Equality, Diversity & Inclusion

South East Technological University (SETU) engages with numerous initiatives designed to advance gender equality, representation, progression, and success for all, and to provide an inclusive and diverse learning environment in which all of our students are supported in reaching their full potential. We are also working on race equality in recognition of the increasing diversity of the ethnic backgrounds of many of our students and staff. Following the publication of the Framework for Consent in Higher Education Institutions in 2019, we are offering extensive training to both staff and students on Active Consent. Our Ending Sexual Violence, Prevention and Support Committee (ESP), we are focused on making SETU a safe, respectful, and supportive place for all members of our community.

We have also adopted a comprehensive gender expression policy developed in response to the need to recognise the range, type, and nature of gender diversity within our student and staff body and to form a policy framework to ensure good practice in its approach to diversity. It followed extensive consultation with a cross-institutional selection of participants including the University's Student Union (SU) and externally with Transgender Equality Network Ireland (TENI).

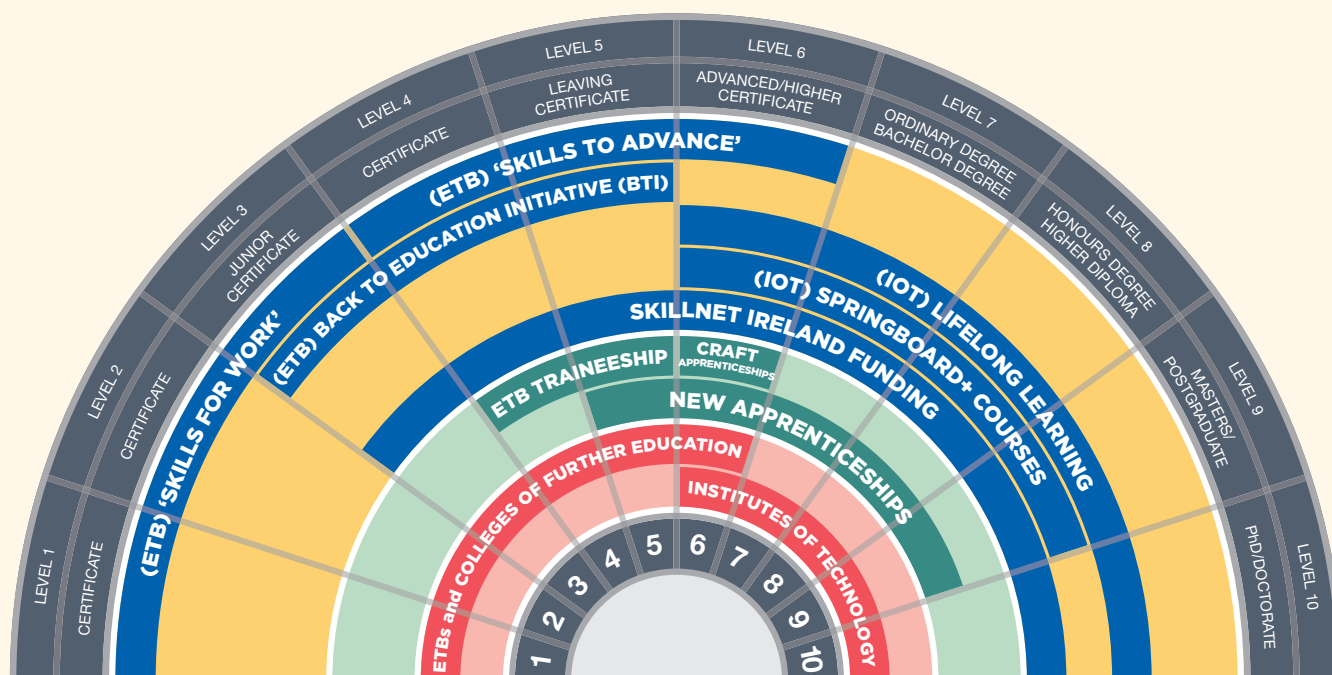

In March 2021 a permanent Director for Equality, Diversity, Inclusion and People

was appointed. This followed on from a successful application for an Athena SWAN Bronze Award from Advance HE for progressing gender equality in academia and promoting diversity and inclusion in higher education. Following on from this, the Department of Computing and the Faculty of Engineering at former Institute of Technology Carlow were successful in their applications for Bronze Athena Swan Awards. The self-assessment process, involving extensive consultation with undergraduate and postgraduate students prior to application at departmental level, was hugely beneficial and enlightening for all participants.

The Athena SWAN Charter is a flagship accreditation scheme which recognises action to address gender equality within our higher education institutions. The Athena Swan Ireland charter has recently undergone a re-development in line with the findings of a national consultation and offers a framework for progressing equality in higher education and research that is unique to our higher education landscape. The objective of the Athena Swan Ireland 2021 charter framework is to support higher education institutions, academic departments, and professional units in meaningful and sustainable gender equality work and to build capacity for evidence-based equality work across the equality grounds enshrined in Irish legislation.

Funded Education & Training for Industry

FULL-TIME STUDY

WORK & LEARN

Traineeships: 6 to 20 months, in-work training courses; levels 4-6; ETBs

Craft Apprenticeships: 4-year in-work, level 6; ETBs & IoTs

New Apprenticeships: multiple new areas; levels 6-9; ETBs & IoT

PART-TIME COURSES FOR EMPLOYEES

Springboard+: funded upskilling courses; levels 6-9; IoTs

Skillnet Ireland: funded training for private business; all levels; Chamber Skillnet Networks

Lifelong Learning: multiple courses including evening, blended & outreach modes; levels 6-10; IoTs

Skills to Advance: training programmes tailored to employer skills needs; delivered by ETBs

Back to Education Initiative: training programmes for persons without Leaving Cert.; delivered by ETBs

How to apply

POSTGRADUATE MAJOR AWARDS APPLICATION PROCESS

All applications for **postgraduate** courses are to be made online via **www.PAC.ie**.

It is important to note that each course has a different PAC code based on award level, schedule and campus location.

Timetabled hours may include daytime, evening and Saturday classes. Refer to individual course pages for further information.

To apply for a postgraduate certificate course, please do so directly through the Lifelong Learning section of the SETU website: **setu.ie/LLL**

1

Gather all supporting documentation to scan or send by post and **REGISTER ONLINE** at **www.pac.ie**.

2

Check your course code, closing date information and **APPLY ONLINE** at **www.pac.ie**.

3

LOGIN TO PAC TO VIEW THE STATUS OF YOUR APPLICATION.

Check your email for alerts on application status change.

4

If successful in your application, **ACCEPT YOUR OFFER** and pay your deposit online via PAC within 10 days and get started with SETU!

UNDERGRADUATE COURSES & POSTGRADUATE CERTIFICATES APPLICATION PROCESS

All applications for **undergraduate courses and postgraduate certificate** courses are to be made through the Lifelong Learning section of the SETU website:
www.setu.ie/LLL

1

RESEARCH AND CHOOSE YOUR COURSE from our prospectus or on the SETU website.

2

Gather all supporting documentation to **SCAN OR SEND BY POST.**

3

Check your course code, closing date information and **APPLY ONLINE** at **www.setu.ie/LLL**.

4

You will **receive an email** informing you **if you are eligible for an offer.**

5

When you receive your offer, **pay your non-refundable deposit online** and get started with Lifelong Learning!

SPRINGBOARD+ COURSES APPLICATION PROCESS

All applications for **Springboard+ courses** must be made directly through the Springboard+ website:
www.springboardcourses.ie

1

Before applying for a course you must register on the Springboard+ website:
www.springboardcourses.ie/howtoapply

2

RESEARCH AND CHOOSE YOUR COURSE from our prospectus or on the SETU website.

3

Check your course closing date information and **APPLY ONLINE** at **www.springboardcourses.ie**.

4

The status of your application will be updated on the Springboard+ website by the provider.

5

When you receive your offer, **accept your place** and get started with Lifelong Learning!

Springboard+ Courses

Springboard+ offers Free / 90% Funded Higher Education courses – typically 1 year or less - in areas where skills are in great demand in the Irish economy. All SETU courses are part-time and are delivered in flexible modes designed to maximise access including for people who are working.

- All courses are open to Employees and Returners* as well as to Jobseekers.
- Level 6 courses are free for all, Employees pay just 10% of the normal course fee for level 7 – 9 courses.
- Returners and Jobseekers may access courses free of charge.
- All courses are open to Jobseekers except the 2-year Computing Conversion courses.

Proof of Eligibility for Funding

In order to be eligible candidates will generally need to:

1. be living full-time in the Republic of Ireland
2. have your own, valid PPS Number
3. meet the nationality/visa requirement
4. have lived in either the EU, the EEA, the UK, Switzerland for at least 3 out of the last 5 years.

Candidates are required to provide up-to-date documentation proving eligibility – please see examples at www.springboardcourses.ie/pdfs/ListAcceptableDocumentation.pdf

Full information on eligibility is available at: www.springboardcourses.ie/eligibility

Proof of Academic Eligibility

Entry Requirements are set out on each course page. All applications must be supported by electronic copies of academic certs uploaded to the Springboard+ website.

Recognition of Prior Learning: applicants who do not currently meet the academic entry requirements may be able to advance their application using Recognition of Prior Learning (RPL). Please see www.setu.ie/springboard for more detail.

English Language Competency: applicants whose first language is not English may be required to submit evidence of competency in English.

How to Apply

Please see page 19.

All applications are made online at: www.springboardcourses.ie

This programme is designed to provide participants with specific knowledge of procurement and quality across many sectors. It will give participants the tools they need to understand the fundamentals of the purchasing role - it is about getting the right product, in the right quantity, at the right quality, in the right place at the right time, for the right customer at the right cost whilst continually focusing on quality and eradicating waste from your processes. It is designed to appeal to those who are looking to re-skill or up-skill within this Sector. The applied nature of this course is reflected in the combination of procurement and quality which focuses on developing the student's knowledge of purchasing strategy, quality management and Lean Six Sigma process.

The innovative four year design of the DBA provides the optimum research structure. During Stage 1 (Years 1 and 2) there are specialist research workshops. In Stage 2 research paper series. Stage 3 involves the production and defence of the DBA thesis.

The DBA provides a logical intellectual growth path for an executive Master's graduate, who has a broad set of business skills, and knowledge in traditional management areas as a result of his/her previous studies. Students will typically be at senior level in their organisation and as the DBA has a strong research orientation it will allow participants to study a particular managerial challenge in great detail through an in-depth study.

On completion of the DBA programme many students pursue further senior management roles within their own companies while others seek research and consulting roles in Irish and overseas companies and universities.

The MBS in Investment Fund Administration had been designed to address general and sector specific skills and knowledge required to advance your career in the investment fund administration sector.

A core principle of the programme is collaboration: an interaction between academia and industry. Companies that are part of the investment fund administration sector have been involved in all aspects of the development of the programme, from high level programme learning outcomes to individual module content. This ensures that the programme and its delivery meets the needs of those currently in the industry. The intention is not to replicate in-house training

programmes but to add to those programmes and provide participants with the intellectual and skills platform required to enhance their career prospects.

Master of Business in Lean Enterprise Excellence

NFQ
LEVEL
9
90
Credits

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Waterford	€7,500 Skillnet	2 YEARS – PART-TIME online	SEPTEMBER 2023	www.pac.ie see page 18 How to Apply

The Master of Business in Lean Enterprise Excellence is an executive/practitioner programme providing participants with the required knowledge, know-how, know-why, and skills to advance as Lean and Continuous Improvement leaders in organisations.

The programme is founded on seminal theories and thinking from scientific management, quality management, world-class manufacturing, change management, the Toyota Production System (TPS), The Toyota Way, and the Shingo Model. Building on that foundation, we synthesise the principles, systems, culture, and behaviours that are integral to contemporary Lean enterprise and operational excellence.

Participants attain in-depth understanding of wider organisational contexts, cross-sectoral applications, and both manufacturing and service orientations.

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Waterford	€6,250	2 YEARS – PART-TIME Flexible over two years, taking 2-3 modules per semester	SEPTEMBER 2023	www.pac.ie see page 18 How to Apply

The programme provides students with the opportunity to greatly enhance their specialist subject knowledge, experience innovative learning methods, and explore opportunities arising from innovation, change and business development. Students achieve this through participation in class activities and through involvement in events organised by the Chartered Institute of Personnel and Development (CIPD).

Our School has well developed links to the CIPD and the body provides strong recognition of our programmes, with graduates of the MBS being accredited with graduate membership of the CIPD. This approach is unique, both in terms of the breadth of the subject coverage, and the depth of

the subject expertise. A key feature of the MBS programme is that it sets the theories into a wider practical perspective, through the use of case studies, state of the art technology and visiting staff who are experienced and respected practitioners.

The Master of Business (Economics and Finance Stream) is a challenging one-year taught programme aimed at preparing graduates for a career in finance or in economics. The course was developed in response to demand from financial service companies for specialist graduates with advanced skills and knowledge in areas such as econometrics, financial derivatives, data analytics and advanced financial analysis and interpretation.

The course was developed in collaboration with companies in the financial services sector with the aim of producing high quality graduates with quantitative and analytical skills who would have a capability to work in specialist roles in economics and finance.

Students may also pursue the associated “Certificate in Finance and Economics” - 30 credits at level 9. See setu.ie/courses

The MBS Internationalisation programme is a one year taught postgraduate business programme that is aimed at students who are interested in developing the skills and knowledge to work in international business environments. Ireland’s export economy has created a set of world class companies and a supporting eco-system of SMEs that in particular has created demand for internationally-orientated business graduates.

This course brings graduates to the cutting edge of the discipline by offering an international programme of study incorporating modules in international business negotiations, international strategy and international entrepreneurship. The programme

aspires to produce graduates who make a critical contribution to the performance and success of international-oriented businesses.

Master of Science in Supply Chain Management

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Carlow	€710	2 YEARS – PART-TIME	SEPTEMBER 2023	www.springboardcourses.ie
Wicklow	Springboard+ (payable by employed people)	2 evenings per week 7.00-10.00pm (indicative)		see page 19 How to Apply

This Masters course offers a robust understanding of the concepts and best practices in Supply Chain Management for application in today's global economy. Supply chain management and sourcing have become a central focus for companies due to the rapid changes in demand for products and services, globalisation and technology. With operations becoming more complex, companies in the manufacturing, retail and technological sectors are searching for individuals with supply chain expertise. This course has been designed in collaboration with industry to address those needs. Potential employment opportunities in light of current skills shortages in industry in the area of Supply Chain Management, this Masters course will provide

participants seeking jobs in this sector with a competitive edge. It will also develop critical skills in areas such as process improvement, resource management, analytical and critical thinking, communication and sourcing and managing quality led sustainable supply chains from supplier to customer.

Carlow	€3,700 per year	2 YEARS – PART-TIME 2 evenings per week 7.00-10.00pm (indicative)	SEPTEMBER 2023	www.pac.ie see page 18 How to Apply

The imperative of the 21st century business environment, risk management is a holistic management construct for identifying potential threats, risks, and vulnerabilities in an organisation and its business enterprise. It concerns ongoing, never-ending strategies to evaluate and mitigate potential disruptions, and encompasses resiliency planning, prevention, crisis management, business continuity management, and technology recovery. As such, the ability to contribute to enterprise risk planning and execution is an important skill for many business leaders. Thus, this course is designed for business owners or people that want to upskill towards senior executive Levels within larger organisations. The primary objective of the MSc

in Business Risk Management is to develop professionals who can take on enterprise risk challenges in today's turbulent business world, enhancing business value by providing analytical and technological solutions that mitigate risk across entire business enterprises.

Postgraduate Diploma in Finance and Business Analytics

NFQ LEVEL 9
90 Credits

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Waterford	€4,500	In-person and on-campus in concentrated blocks.	SEPTEMBER 2023	www.pac.ie see page 18 How to Apply

Graduate Diploma in Finance and Business Analytics will be taught over one academic year and aims to enable participants to:

- Develop quantitative, analytical and ICT skills to carry out data and financial analysis tasks.
- Communicate and interpret the output of their analysis.
- Exhibit curiosity, in a critical manner, in evaluating analysis undertaken by themselves or others.
- Develop their careers within their current employment or as an initial stepping stone to a career as a financial analyst/data analyst.

The course offers students the opportunity to develop their understanding of the theories underpinning core phenomena in business analysis while allowing students to work with 'live' data, facilitated through the availability of the newly developed Finance Lab.

This one-year course has been designed for graduates of business and nonbusiness disciplines in order to equip them with the necessary knowledge and competencies required in international business. International business is concerned with contemporary issues in business from both a national and international perspective. Learners will have leading knowledge of contemporary theories, concepts and issues concerning international business in today's society. In addition, the modules blend both theory, practice and policy to ensure that the learner will be able to manage, develop and lead organisations in the sector. The course will also provide learners with critical thinking tools to enable them to succeed in the field of business.

It will provide learners with a critical understanding of concepts and approaches to enable individuals and groups to realise their potential.

Carlow	€730 Springboard+ (payable by employed people)	1 YEAR – ONLINE 2 evenings per week 7.00-10.00pm with some Saturdays throughout the year (indicative)	SEPTEMBER 2023	www.springboardcourses.ie see page 19 How to Apply

This exciting Masters course in Information Technology Management will provide students with a comprehensive skillset to fulfil and succeed in a variety of roles in the field of IT Management. Drawing on best practise from Ireland and abroad, the course is designed to meet current industry needs and is aimed at developing academic knowledge and practical skills in areas such as:

- IT management
- Leadership strategies and techniques
- IT related project management and tools
- Operational and resource management of data and information systems
- Data security.

Students on this course have exclusive use of the UNUM Software Development Centre. This is a new state-of-the-art centre that provides the students with a real-world working environment using the latest technology.

Master of Science in Computing Information Systems Processes

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Waterford	€4,950	1 YEAR FULL-TIME Part-time over a longer period	SEPTEMBER 2023	www.pac.ie see page 18 How to Apply

The MSc in Computing in Information Systems Processes combines the human, the organisational, and the technological to provide a broad perspective of modern information systems and their development. The human aspects of the programme explore issues such as human computer interaction, psychology, computer ethics, and systems development in the human-centred tradition. The organisational aspects consider successful business processes and how these can be supported through information infrastructures such as supply chain management systems. Finally, the technological aspects look to trends in information systems development, such as emerging methodologies, software development, and

technological systems. The programme also includes a research project and dissertation, thus allowing students to investigate an individual area of personal interest.

Carlow	€800 Springboard+ (payable by employed people)	1 YEAR - PART-TIME Online during the daytime (indicative)	SEPTEMBER 2023	www.springboardcourses.ie see page 19 How to Apply

The programme has been developed looking at the needs of industry. A focus of the programme will be on areas where the greatest skills gaps exist in cybersecurity within Ireland such as cloud security, incident handling and regulatory compliance. This MSc in Cybersecurity, Privacy and Trust is built on the foundations of successful partnerships with local and regional companies during the development since 2016 of the Department of Computing's highly successful undergrad programme the BSc in Cybercrime and IT Security.

Higher Diploma in Production Management for Digital Animation

NFQ
LEVEL
8
60
Credits

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Waterford	€3,000	2 YEARS – PART-TIME Blended	SEPTEMBER 2023	www.pac.ie see page 18 How to Apply

The Higher Diploma addresses the needs of the Digital Media/ Animation sectors for qualified project management graduates in an increasingly convergent marketplace. The course is structured around the established workflow phases of a typical animated feature and was designed following extensive dialog with relevant enterprise partners (e.g. Cartoon Saloon, Brown Bag Films). All modules reflect industry Project Management best practice. Semesters 1 and 2 address the critical production workflow and related project management disciplines. While Semester-3 offers Work Placement and Mentorship in association with Enterprise Partners. The philosophy of the HDip in Animation Production is to blend

the creative (observation, artistic conception and an understanding of the traditional principles of animation) and the technical (Animation and Post Production Tools) with management and strategic planning skills specific to the Digital Animation Industry.

90
Credits

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Waterford	€900 Springboard+ (payable by employed people)	ONLINE Live online classes 12-2pm, 2 days per week (classes are also recorded). 3 onsite workshops available per year.	JANUARY 2024	www.springboardcourses.ie see page 19 How to Apply

The Higher Diploma in Computer Science is an online 24-month course in software development. This award-winning course facilitates graduates from non-computing disciplines to acquire the cutting-edge programming skills, practical experience, and in-depth knowledge required for employment in software development. The curriculum is closely aligned with current industry needs and emerging technologies.

The course is delivered in Agile Semesters typically consisting of 4, three-week sprints followed by 1-week breaks for retrospective, after each sprint. Average time commitment is 16 hrs per week. Online delivery over the two years is supplemented by four onsite workshops.

This practical, skills-orientated course is implemented through step-by-step online labs/classes, pre-recorded sessions and Q&A sessions. We work to build a sense of community online with ongoing communication and support.

Bachelor of Engineering (Honours) in Industrial Engineering

NFQ
LEVEL
8
60
Credits

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Extended Campus	€3,600 per year	4 YEARS – HYBRID A combination of pre-course reading, pre-recorded classes, live and onsite classes.	SEPTEMBER 2023	www.setu.ie/LLL see page 19 How to Apply

The BEng in Industrial Engineering programme prepares learners for industrial engineering roles in industry. The programme aims to develop NFQ level 8 graduates to be experts in applying industrial engineering principles in industry situations. While graduates are adept in the existing tools of industrial engineering upon completion of the programme, they also have the understanding and practical experience to be problem solvers using industrial and systems engineering principles in the workplace. There are also five minor awards at level 6, 7 and 8. These are all 20 ECTS.

- Certificate in Industrial Engineering and Lean Principles (Level 6, 20 ECTS)
- Certificate in Project Management and Lean Applications (Level 6, 20 ECTS)
- Certificate in Advanced Industrial Principles with Quality and Lean Systems (Level 7, 20 ECTS)
- Certificate in Material and Operations Management for Supply Chain (Level 7, 20 ECTS)
- Certificate in Digitalisation and Advanced Lan Applications (Level 8, 20 ECTS)

Bachelor of Science in Flight Operations

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Extended Campus	€3,600 per year	3 YEARS – PART-TIME Hybrid approach involving pre-course reading, pre-recorded classes, live and onsite classes.	SEPTEMBER 2023	www.setu.ie/LLL see page 19 How to Apply

The aim of this programme is to give students a thorough introduction to the principles of flight dispatching including civil air law, ICAO, EASA and IAA roles, airline operations and air traffic management. The programme will also give students a good understanding of flight planning, aviation navigation and aviation meteorology as well as the principles of human factors and health and safety and safety management systems within the aviation sector. Modules have been chosen and designed based on leading industry advice and consultation and research about student and employer demand. The modules chosen are designed to provide students with the knowledge, skills and competencies required by the sector and includes additional

academic modules linked to the aviation sector. The core aviation syllabi come from the International Civil Aviation Organisation (ICAO) Flight Operations Officers/Flight Dispatchers Training Manual Doc 7192-AN/857 Part D-3 Second Edition 1998 and all ICAO annexes..

Students can exit the programme with a Higher Cert in AFD on successful completion of years 1 & 2 of the Bachelor of Science in Flight Operations.

Bachelor of Science in Construction Site Management

NFQ
LEVEL
7
60
Credits

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Waterford	€500 Springboard+ (payable by employed people)	1 YEAR – PART-TIME 8 × 2 days on-campus take place once per month on a Thursday and Friday over three semesters.	SEPTEMBER 2023	www.springboardcourses.ie see page 19 How to Apply

The BSc in Construction Site Management has been developed in response to the industry's critical need for suitably qualified and experienced Site Managers. Participants typically include those who have progressed to a supervisory/management role from a trades background and/or with substantial site experience. A full Level 7 qualification, it is delivered over 12 months via an innovative blended delivery approach combining classroom and online learning. The course places a strong emphasis upon recognising and incorporating the learner's experiences into the learning process moving away from teaching to learning that embraces reflection, discussion and guided development. The curriculum focuses upon the development of both construction

specific competencies and broader personal and professional skills. Through this educational process, graduates of the course have grown in confidence and are now assured in their role as Construction Management professionals.

Bachelor of Engineering in Fire Engineering

NFQ
LEVEL
7
60
Credits

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Waterford	€3,000	1 YEAR – PART-TIME Blended with 50% of programme delivered face to face on campus and 50% online.	SEPTEMBER 2023	www.setu.ie/LLL see page 19 How to Apply

This industry-focused programme is responding to the developing skills shortage in Fire Engineering in the construction sector. There is now growing awareness of fire safety design and a growing need to have construction professionals trained in this area. The introduction of the Building Control Amendment Regulations (BCAR) has had a very significant effect on the way building design and construction is managed and implemented. Consequently, employers are increasingly looking for employees with specific sets of fire safety engineering skills for all construction phases including specification, design, installation, certification, inspection, management & maintenance of passive and active fire protection systems in buildings.

The course has been designed to allow construction professionals from architectural and consulting engineering practices, construction contractors, M&E contractors, building surveyors, building product suppliers, property risk assessment and insurance personnel, Fire Service and Fire Industry personnel to upskill and gain a qualification in fire engineering.

Bachelor of Science in Additive Manufacturing

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Waterford	€750 Subsidised through the Human Capital Initiative	1 YEAR – PART-TIME Blended: 50% synchronously online 50% on-site lecturers Fridays 9am – 5 pm; Once per month Saturdays 9am – 12pm	SEPTEMBER 2023	www.setu.ie/LLL see page 19 How to Apply

The new BSc in Additive Manufacturing degree is designed to allow people currently working in an additive manufacturing to upskill in the advanced additive manufacturing applications across a multiple industry sectors including Med-Tech, Bio-Pharma, Aerospace, Agri-Tech and Precision Engineering. The degree has been developed by the SETU-led AMASE | Additive Manufacturing Advancing the South East project funded under the Irish Government's Human Capital Initiative and in partnership with industry partners.

Along with the BSc in Additive Manufacturing (60 credits at level 7) the AMASE team have also developed an integrated suite of shorter 10-credit awards:

- Certificate in Introduction to Additive Manufacturing – 10 credits
- Certificate in Design for Additive Manufacturing – 10 credits
- Certificate in Additive Manufacturing Health & Safety and Regulatory Affairs
- Certificate in Additive Manufacturing Lab Technologies & Post Processing.

The aim of the programme is to give students a range of professional work-based skills and a detailed introduction to the general principles of operations of a Fire Service. The skills training will include both theory and practical elements and also teach students the concepts of fire dynamics.

Programme Outcomes

Upon successful completion of the programme, the learner will be able to:

- Demonstrate a detailed understanding of the operational functions of a fire fighter
- Demonstrate a high level of fire-fighting skills
- Show good report writing and communications skills

Demonstrate good team working skills.

This programme will be offered subject to demand.

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Waterford	€5,950	18 MONTHS – PART-TIME Blended delivery on Mondays	SEPTEMBER 2023	www.pac.ie see page 18 How to Apply

The Master of Science in Applied Sport and Exercise Psychology provides the student with an in depth and comprehensive course of study in applied sport and exercise psychology designed to help enhance the sports participation and performance of athletes and coaches.

Graduates will have the necessary knowledge, skills and abilities to work in the area of enhancing sports performance, sports participation and best practice at a variety of age and performance levels. Graduates will have the ability to further the psychological development of athletes, coaches, teachers and other specialists from a broad-based, sound theoretical and applied course.

Applied sports psychology focuses on teaching skills to enhance athletic performance such as goal setting and imagery.

The programme is delivered via a hybrid model, every second Monday is on campus, and the alternative Monday is pre-recorded and online. There is also one residential week module per semester.

Master of Science in Cognitive Behaviour Therapy and Motivational Interviewing for Practice

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Waterford	€8,500	18 MONTHS – PART-TIME Blended. Classroom: one day per fortnight over the 3 semesters with a 3-day block in week 4 of the first and second semesters	SEPTEMBER 2023	www.pac.ie see page 18 How to Apply

The Masters of Science in Cognitive Behaviour Therapy (CBT) and Motivational Interviewing (MI) for Practice programme is an 18 month programme that arises from a requirement for health and social care professionals to provide effective evidenced based interventions for a range of health and social problems. The programme is of particular interest to those working in health related fields including mental health nursing, social care, addiction services and voluntary organisations. CBT is widely utilised for a range of psychological problems.

Cognitive and behavioural treatments are among the most extensively evaluated of psychosocial interventions for problem alcohol

and drug use. The MSc in Cognitive Behaviour Therapy (CBT) and Motivational Interviewing (MI) for Practice has a strong focus on developing and enhancing the practitioners' skills, whilst also setting the interventions within a wider theoretical perspective.

Master of Science in Mental Health Practice for Children and Young People

NFQ
LEVEL
9
90
Credits

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Waterford	€950 - module €5,500 - PGDip €8,500 - MSc	FLEXIBLE – PART-TIME 18 hours online and 16 hours of in-person teaching per module	SEPTEMBER 2023	www.pac.ie see page 18 How to Apply

The Mental Health Practice with Children and Young People program is designed to be as flexible as possible and to meet the needs of any professionals working with or hoping to work with young people. The course is aimed at nurses, social care workers, speech and language therapists and other allied professionals.

There are six 10-credit modules that can be taken individually as Professional Certificates, or together along with a 10 Credit research module, to make up a 60-credit PG Diploma, or with an additional 30-credit Dissertation module which makes up a 90-credit MSC. Candidates can do as little or as much as they need for their own professional roles. The course requires candidates to have a level 8 qualification, there is

no stipulation that it needs to be in the area of social sciences or education.

It is a multi-disciplinary program delivered in a blended capacity with 18 hours online and 16 hours of in-person teaching per module.

There is no licence to practice involved in any of the awards, but each will enhance the student's knowledge of the specific areas of children's and young people's mental health.

Social care professionals provide vital support, advocacy and care to some of the most vulnerable and marginalised groups in society including people with disabilities, children and families at risk, asylum seekers, people with addiction, mental health issues and the elderly. The course provides graduates with the skills and expertise to work in the social care profession and work across this diverse sector, typically in fields such as residential care, disability and community based services. Our strong links to practice allow us to facilitate students in professional practice placements throughout the course, further developing their professional skills and knowledge for future employment in areas of social care, social policy and social justice.

Children require high-quality education and care during their formative years. Research indicates that the higher the professional qualification of the educator working with the children, the higher the quality of the setting. This honours degree in Early Childhood Education and Care enables the student to study a diverse range of subjects in order to gain a deep understanding of babies and children from birth to 6 years of age. The importance of play and interactions in supporting learning is emphasised throughout. Students develop a knowledge and understanding of Aistear, the Early Childhood Curriculum Framework and Siolta, the National Quality Framework for Early Childhood Education, essential for professional work in this

area of practice.

Early childhood education and practice involves supporting babies and young children to become competent and confident learners through loving relationships with others. Graduates of this programme will have the knowledge, competencies and skills to work directly with, or on behalf of, babies and young children in a range of early childhood settings, particularly in the ECCE 'free' preschool year funded by the Department of Children and Youth Affairs. Professional employment opportunities can include roles as room leaders, managers and leaders in early childhood settings such as: preschools; crèches; special needs services; family support centres and community services. Opportunities may include leadership roles in county childhood care

committees, specialists with Better Start National Early Years Quality Development or inspectors with the Department of Education and Skills.

60 Credits

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Waterford	€575	1 YEAR – PART-TIME	SEPTEMBER 2023	www.springboardcourses.ie
	Springboard+ (payable by employed people)	Students will be online on Mondays 10am-4pm and on site in SETU Waterford on Tuesday only from 9am-6pm.		see page 19
				How to Apply

The Diploma in Restaurant Management is designed with industry partners (IHF, Restaurant Association and Fáilte Ireland) to provide a professional career route for two specific groups of individuals, staff building a career in the restaurant sector or career changers.

The aim of this programme is to provide learners with the knowledge, practical skills and competence necessary for a career in a modern ever-changing restaurant environment. This will be achieved by developing modern food and beverage skills in various different styles of food service. Combined with practical skills students will also upskill in human resource management, costing and productivity in financially challenging environment, leading and motivating

colleagues, digital marketing techniques, Excel in customer service, and interpersonal skills through taking initiative and applying flexibility and creativity in problem solving.

Certificate in Culinary Skills

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Waterford	Fully funded through Springboard+ - no fees apply	1 YEAR – PART-TIME Onsite two days per week Wednesday and Thursday	SEPTEMBER 2023	www.springboardcourses.ie see page 19 How to Apply

The programme is largely skills based. It will equip the learner to a standard that will give him or her the necessary skills to begin a professional career in Culinary Arts and the ability to take up work in a professional kitchen environment. As an entry level programme, the skills acquired will be sufficient to enable the learner to embark on his or her culinary career.

The modules are designed to cover the skills required in professional practice to ensure that the learner can cope with the fast-paced environment of a commercial kitchen at a junior or trainee level. The learning is further enhanced with immersion in the work place through the work-based element of the program. Learners will also acquire key transferable skills in

HACCP and manual handling which is a desired requirement of the employer.

This programme provides learners with a range of critical and analytical tools to enable them to manage and lead services that develop the potential of children, youth and families and envision new possibilities for better service provision in the sector. The course is designed to provide the knowledge, skills and competencies required by the sector and to provide future leaders of Child, Youth and Family services in Ireland and abroad. The course aims to educate learners to high levels of contemporary and comparative theoretical awareness in fields central to services provision and to create an atmosphere of rigorous academic enquiry and writing. Learners will develop a deep and integrated knowledge of contemporary child, youth and family theory and

practice, and the sector within which child, youth and family services operate.

This course has been designed to facilitate and prepare students and current practitioners or those with an interest in early childhood education for leadership and management roles in the operation of early childhood education services and related public policy. This Masters course will develop students' ability to both analyse, manage and creatively respond to critical issues and changes in early childhood care policy and service implementation, all the time being cognisant of the best interests of the child. This is an ideal postgraduate course for students or current practitioners within the early childhood education sector who are interested in becoming an administrator, director or manager of early childhood education programs.

It is also suitable for those interested in advisory, mentoring and inspection roles within the sector.

Marketing and Social Media is the pulse of the 21st Century. It is how people keep in contact with friends near and far, it is how we share opinions, it is how we purchase and consume goods and services. What is, however, often less visible is just how important social media is to business. In Ireland, social media and the digital sector, along with the business world is moving at an incredibly fast pace and industry is highly evolving. As marketers we must embrace this new social movement in order to engage with the ever changing customer within a business context. This Certificate will provide students with the business, marketing and digital media skills and knowledge needed to enter this Industry.

Carlow Wicklow Wexford	€350 Springboard+ (payable by employed people)	1 YEAR – PART-TIME 3 evenings per week 7.00 - 10.00pm	SEPTEMBER 2023	www.springboardcourses.ie see page 19 How to Apply

The main aim of this course is to facilitate the transformation of the novice student into a creative practitioner in digital media design. The course provides an integrated learning environment (studio) that encourages creativity, innovation, self-assessment and discussion. Learning and assessment is through “real world” practices, which involve setting project briefs in a project/ problem-based learning environment. Students will develop a portfolio of works to include designs in digital media and graphic design. Through a transformative process, students will become creative practitioners and developing skills in: creative problem solving, design principles and practices, project management, communication and collaboration, technical design skills,

marketing and entrepreneurship. They will experiment and explore new ideas and concepts and integrate theories and methodologies to develop design solutions. A good designer should display personal qualities of ambition, curiosity, energy, enthusiasm, imagination, initiative and talent.

All applicants will be considered on a case-by-case basis. SETU reserves the right to require applicants to attend for interview to determine their suitability for the course.

Higher Diploma in Arts in **Television Production and Media Production**

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Waterford	€3,000	1 YEAR – PART-TIME 1 year at SETU Waterford Campus and in the Nemeton TV training studios in An Rinn	SEPTEMBER 2023	www.pac.ie see page 18 How to Apply

The award-winning Higher Diploma in Ard Dioplóma sna hEalaíona i Léiriú Teilifíse agus na Meán, developed by SETU and Nemeton TV in partnership with Udarás na Gaeltachta, has been successfully preparing new media talent since 2006. The course will commence again this September with an exciting and innovative brand new blend of practical workshops delivered through block release and online classes. The seven-month course is uniquely tailored to the needs of students and is particularly suited to those who wish to develop their skills while also working. It is designed to provide students with the essential practical skills to enter the television, film and audio-visual industries as professionals. Hence, our graduates usually find work immediately upon

completing their studies in production companies and television stations around Ireland and further afield. Students and graduates regularly win at the Student Media Awards and in film festivals, and their work is broadcast on TG4.

The course is delivered in one academic year with practical workshops in Nemeton TV Training Studio in An Rinn. Complimented with one SETU module each term delivered online.

Credits

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Carlow	€2,500	1 YEAR – PART-TIME 3 evenings per week 7.00 - 10.00pm with some Saturdays throughout the year (indicative)	SEPTEMBER 2023	www.pac.ie see page 18 How to Apply

This course is co-delivered with Carlow College. The Higher Diploma in Journalism and New Media Content is designed to attract, train and educate a cohort of individuals who wish to have careers as writers in the cognate fields of journalism, media and communications; anywhere where precision and facts are vital to the success and empowerment of employers, audiences and democracy. The course is also aimed at those already working in media and journalism who might want to engage with deeper views and new methods to improve and expand their practice. Each module is designed to provide a comprehensive education and training in the skills, competencies and knowledge needed to become a journalist and/or media

content creator. Students will learn to construct stories factually, engagingly, and appropriately for different media platforms and audiences.

Students will go beyond the mere training needed to write accurately in the journalistic mode and further their practice by engaging with advanced academic work to unveil deeper knowledge about the theory and practice of journalism and media writing.

Wicklow				
Wexford				

This module explores current contrasting and emerging issues in childhood and youth theory, policy and practice. The roles, responsibilities and experiences that children and young people may explore outside of the family are examined. The lives of children and young people who experience adversity and resilience

are studied. The future of childhood as a consequence of globalisation is critiqued. Finally, the active agency of children and young people as participants in their own lives and futures is discussed. The theme of empowering and enabling children and young people to become active citizens runs through the module.

Carlow	€450	12 WEEKS – PART-TIME 1 evening per week 7.00 - 10.00pm (indicative)	SEPTEMBER 2023 and JANUARY 2024	www.setu.ie/LLL see page 19 How to Apply <i>Scan QR code for the full list of modules.</i>
Wicklow				
Wexford				

This course supports managers, staff and carers to develop and implement comprehensive Behaviour Support Plans for people who present with behaviours that challenge. The course will examine the model of positive behaviour support, proactive vs. reactive strategies, examine the causes of challenging behaviour, and examine non-aversive approaches and evidence positive behaviour support approaches. This course is appropriate for people who support and care for children and adults in all caring and support services.

Carlow	€390	12 WEEKS – PART-TIME 1 evening per week 7.00 – 10.00pm (indicative)	SEPTEMBER 2023	www.setu.ie/LLL see page 19 How to Apply <i>Scan QR code for the full list of modules.</i>

Social pedagogy has a longstanding tradition across continental Europe and Latin America as a holistic and relationship-centred way of working in social care and educational settings with people of all ages. The aim of this module is to introduce students to social pedagogy as a framework for social, community,

youth or educational practice. Through students operationalising social pedagogy as an overarching ethical and conceptual framework in their practice, the module also aims to enhance practice with individuals, groups and communities.

Entry requirements

All applicants will be considered on a case-by-case basis. Lifelong Learning reserves the right to require applicants to attend for an interview to determine their suitability for the course.

An Cosán

SETU accredited courses

An Cosán: Empowerment Through Education

An Cosán's mission is to use the power of transformative education through learning, leadership, and enterprise to end the injustice of poverty.

An Cosán holds as its utmost value that access to education is a human right. We provide a pathway to learning, leadership and enterprise for those who are most marginalised in our society. Our focus is primarily on women and children, although we welcome others, as we believe this is the most effective way to end intergenerational poverty.

We are a feminist organisation that holds empowerment and equality at our core. We strongly believe in inclusivity, diversity, and respect. The communities we work in are important to us and we are constantly striving to find new ways to break down barriers for people to access education in these communities to achieve their full potential.

We offer a variety of courses in early years education and care, parenting, community, further, and higher education. In our online education courses, we bring our ethos beyond Jobstown to locations across the country through our network of more than 200 community partners.

Higher Education courses

The South East Technological University is the Designated Awarding Body for An Cosán. The following Linked Provision courses are developed in the context of adult community education and transformative lifelong learning. They are intended for part-time, mature students. Minimum entry requirements apply.

- BA Degree in Applied Addiction Studies and Community Development (Level 7, 180 ECTS)
- BA Degree in Leadership and Community Development (Level 7, 180 ECTS)
- Certificate in Personal and Professional Development (Level 6, Special Purpose Award, 60 ECTS)

- Certificate in Leadership and Social Enterprise (Level 6, Special Purpose Award, 60 ECTS)

An Cosán also offers accredited, third level courses of short duration throughout the academic year. Accredited minor awards serve as appropriate entry routes for adult learners seeking to return to third level education or seeking professional development opportunities.

- Technology Enhanced Learning (Level 7, Special Purpose Award, 10 ECTS)
- Transformative Community Education (Level 7, Minor Award, 10 ECTS)
- Introduction to Citizenship and Social Action (Level 6, Minor Award, 10 ECTS)
- Introduction to Community Leadership (Level 6, Minor Award, 10 ECTS)
- The Nature and Context of Addiction (Level 6, Minor Award, 10 ECTS)

- Drug Prevention, Education and Awareness (Level 6, Minor Award, 10 ECTS)

The complete list of available minor awards may be accessed at <https://www.ancosan.ie/higher-education/>. Available minor awards are updated regularly throughout the academic year.

SETU delivers the following award at An Cosán's premises in Jobstown:

- BA Degree (Honours) in Early Childhood Education and Care (Level 8, 240 ECTS)

An Cosán welcomes enquiries from individual learners as well as from community-based organisations seeking collaborative partnerships. Email course enquiries to courses@ancosan.ie

About the Higher Certificate

The QQI Level 6 Higher Certificate is open to professionals who wish to further their knowledge in the areas of business, logistics, procurement and supply chain management.

The course is designed for participants who currently work in the industry but do not have the necessary academic achievements to progress their career.

Students come from a variety of backgrounds across the logistics, purchasing, supply chain and transport areas.

Lecturers are Industry professionals who give real life case studies and examples during class as well as the academic knowledge to underpin learning experience.

The Higher Certificate is open to all individuals regardless of experience, we welcome those new to the industry looking to pursue a new career.

Higher Certificate courses will commence in September 2023, please refer to the CILT website for course commencement dates: www.cilt.ie

Dublin Art Therapy College SETU accredited courses

In 2011 Dublin Art Therapy Studio (DATS) commenced offering a Professional Certificate in Art Psychotherapy to Counsellors and Psychotherapists. The need for a separate and distinct school of art therapy in Ireland emerged because of accumulative international evidence of the therapeutic value of art as a distinct therapy (Chapman, L. et al. 2001, Drake, L. et al. 2012, Monti, D. et al. 2004, Seligman, Z. 1995, Thyme, K. et al. 2007). The focus of the course was to enable therapists to integrate art therapy into their clinical practice. With growing interest in Art Therapy, it soon became apparent that there was a need for a comprehensive core-training programme to be established.

The philosophy of the Dublin Art Therapy College (DATC) embraces the Person-Centred Approach and integrates the core philosophical principles with Art

Psychotherapy and Neuroscience. (Hass-Cohen, N. & Carr, R. 2008, Malchiodi, C. 2013, Rogers, N. 1993, Rubin, J. 2016). Immersed in the humanistic beliefs and traditions of developmental self-actualisation, there is a strong commitment to promoting a student-centred learning environment. This environment is fully supportive of students as they enter the rigours of personal, professional, and academic development. A holistic approach to education underpins the pedagogical style and DATC aim to help learners to achieve their full potential. The focus is on identifying and respectfully supporting the needs of the students, whilst at the same time being mindful of diversity. Underpinning this philosophy is our adherence to upholding the professional and ethical framework outlined through the recognised regulatory agencies, such as IACP, with integrity.

Gestalt Institute of Ireland SETU accredited courses

The Gestalt Institute of Ireland has been training therapists since 1983. It has an established record for producing therapists who are not simply qualified but recognised for the high standard of their professional work in the field.

Courses are accredited by both IAHIP and IACP and provide an exciting journey into self-awareness alongside a rigorous professional training. Skills, theory and personal development are given equal weight. An integrated approach to their delivery is facilitated by the experiential structure of the course which affords

many opportunities to link theory and practice and foster the development of a reflexive practitioner. Graduates are equipped to work effectively in a variety of professional settings and past students currently take a leading role in the field of psychotherapy in Ireland.

The course is delivered at Teach Bhride, Tullow Co. Carlow in residential teaching blocks. Modules 1-3 comprise the Postgraduate Diploma (Level 9) with Module 4 being the dissertation module which leads to the award of Masters of Arts in Gestalt Psychotherapy.

SETU accredited courses

Master of Arts in Gestalt Psychotherapy

Postgraduate Diploma in Arts in Gestalt Psychotherapy

Diploma in Supervision

Tivoli Institute SETU accredited courses

Established in 1992, the Tivoli Institute celebrates 30 years of providing education and training in the areas of counselling, humanistic and integrative psychotherapy, personal, community and cultural development..

The Institute's philosophy is holistic, person-centred and psychodynamic, inspired by the work of Carl Rogers, Martin Buber, D.W. Winnicott, Carl Jung and others.

The Institute provides consultancy services to industry, Government agencies and educational organisations.

Courses awarded by SETU

The National Framework of Qualifications includes all education and training awards (schools, Institutes of Technologies, Universities) offered in Ireland and relates them to each other. This section briefly explains the award types and gives an overview of the main features of these awards.

Definitions

Course: The course.

Award: The qualification at the end of the course.

Module: The individual subject studied.

Each course is made up of modules. A module has a specific content, assessment tasks and credit value. The credit value of a module is linked to the volume of learning covered and the academic demands placed on the student. A credit is a way of measuring the amount of learning undertaken by a student. This will normally include time you devote to your studies, teaching time through lectures, work for assignments and private time. Credits are gained when you have successfully completed the assessments and/or exams for that module.

SETU uses the European Credit Transfer System (ECTS), in which 1 ECTS credit corresponds to approximately 20 to 25 hours of learning time. One advantage of ECTS is that it is internationally recognised by European and international universities. Some modules of our courses are offered on a stand alone basis e.g. Employment Law from our Lifelong Learning degree course. This means you study the module at the same level as those doing the full course and you receive the same credits but you only cover that one module. This will provide you with a chance to “dip your toe” into the course and should you decide to pursue the full course later any accumulated credits will go towards the Award.

NOTE: All programmes are offered subject to sufficient numbers of students.

This document is intended as a guide to programmes. While every effort has been made to ensure the completeness and accuracy of the information contained in this publication at the time of print, South East Technological University reserves the right to make changes to any content, schedules or fees.

Parchments

Candidates should note that Parchments for Minor and Special Purpose Certificate courses will be issued in December.

Our awards may be classified under three headings:

- **Major Awards** - are the principal class of awards, e.g. Honours Bachelor Degree at Level 8 such as the Bachelor of Arts (Honours) in Law.
- **Minor Awards** - are linked to a Major Award and they provide recognition for learners who achieve a range of outcomes, but not the specific combination of learning outcomes required for a Major Award, e.g. Diploma in Law.
- **Special Purpose Awards** - are made for specific, relatively narrow, purposes — for example the Certificate in Electrical Principles.

We offer several different types of Awards

A Certificate: is awarded for courses at Level 6, with 60 credits or less and can be achieved in one-year e.g. Certificate in Administrative Law.

A Diploma: is awarded for courses with more than 60 credits but less than 120 credits and would require two or more years, e.g. Diploma in Law. This example is a Minor Award linked to our Honours Degree in Law.

A Higher Certificate: is awarded for courses at Level 6 with 120 credits and would require two-years study, e.g. Higher Certificate in Business. This is a Major Award.

An Ordinary Bachelors Degree: is awarded for courses at Level 7 with 180 credits and would require, on average, three years study, e.g. Bachelor of Arts in Applied Social Studies. This is a Major Award.

An Honours Bachelors Degree: is awarded for courses at Level 8 with a minimum of 180 credits and would require on average four years part-time study, e.g. Bachelor of Business (Honours) in Management. This is a Major Award.

Masters Degree: is awarded for courses at Level 9 with a minimum of 90 credits and would require a minimum of 2 years part-time study, e.g. Master in Business Administration / Master in Business.

Postgraduate Diploma: is awarded for courses at Level 9 with 60 credits where a student registered and completed this award.

National Framework of Qualifications Comparison Table

Old awards up to 2004	NFQ Level	New awards	NFQ Level
		Masters/Postgraduate Diploma	9
Honours Bachelor Degree	8	Honours Bachelor Degree/Higher Diploma	8
National Diploma	7	Bachelors Degree	7
National Certificate	6	Higher Certificate	6

PLEASE NOTE: All fee information can be located on www.setu.ie. It is the responsibility of the applicant to be aware of the fee information for the relevant courses.
