

CAMPUS TRAFFIC MANAGEMENT – SETU WATERFORD CAMPUS

Purpose of Campus Traffic Management

South East Technological University (SETU) is committed to providing a safe environment for both pedestrians and vehicle users. To support this, it is essential that access across the campus is maintained at all times for emergency services, including ambulances and fire services, while also ensuring safe passage for all pedestrians.

Travel to Campus

In the first instance we would advise Staff and Students to consider sustainable methods of Transport to Campus. Please visit <https://www.transportforireland.ie/> which gives you the public transport options available to help you plan your journey.

In addition, SETU are part of TFI bike scheme: The TFI Bike service is available all year round, 7 days a week, from 5am to 12.30am, although bikes can be returned to available stands across the city at any time of the day. <https://www.bikeshare.ie/waterford.html>

If you wish to cycle your own bicycle, there is information on bicycle parking at: <https://www.setu.ie/about/setu-campuses/campuses-and-facilities>. A bicycle repair kit is available opposite the Security Office on the Cork Road Campus.

Carpooling

Further information about the carpooling scheme are on the link below:

<https://www.setu.ie/about/sustainability-at-setu/living-sustainably/travel-and-transport/carpooling>

Motorbikes, Bicycles, eBikes and eScooters

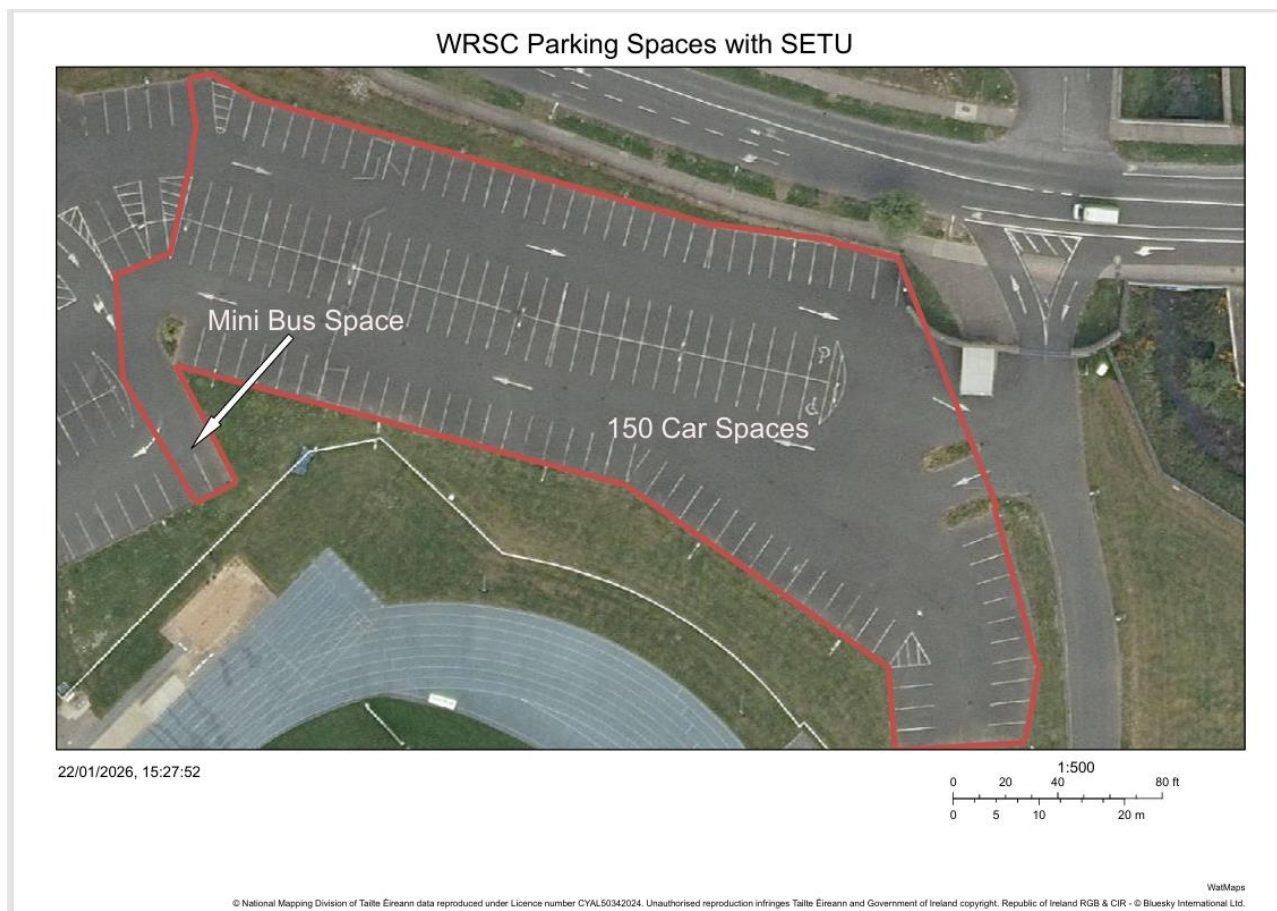

Bicycles, eBikes, eScooters and Motorbikes must be parked at designated bicycle parking zones. Where bicycles, eBikes and eScooters are parked at locations, other than designated parking zones, including inside buildings these may be removed to designated parking areas.

E-scooters must be dismounted when entering campus grounds to ensure the safety of pedestrians. Please note that the speed limit on roadways is **15km/hour** and this limit also applies to e-scooters and eBikes. The use of e-scooters/e-bikes is not permitted inside University buildings. E-scooter/e-bikes should not be used on footpaths or any pedestrianised areas, pedestrians always have priority in these areas.

Additional Car parking

Additional car parking is available at the RSC (Regional Sports Centre), Cork Road, Waterford X91 AE79 and SETU Greenway carpark (opposite SETU Arena). Please pay attention to open and closing times on signage displayed in these car parks. Please also note that Waterford City and County Council have specifically requested SETU staff and students to park in the designated

spaces at the RSC (please see map below). Your co-operation to park in the designated spaces is essential to ensure continued use of the additional parking at the RSC.

SETU will run the RSC shuttle bus again this year from RSC to Cork Road Campus and vice versa. Please see amended timetable below for this academic year.

 OVERFLOW CAR PARKING
with Free Shuttle Bus from

Regional Sports Centre 📍 *Eircode: X91 AE79 to Cork Road campus*

 Morning Departures from RSC to SETU, Cork Road Campus:**Monday–Friday**

9:00am

RSC carpark closes at 6pm Monday to Thursday and on Friday at 3:00pm. Please ensure your car is moved before this time.

For questions, please contact:
Estates Office at Estates.WD@setu.ie or
Sustainable Development Office at sustainability@setu.ie

 Operating dates

This service operates from Wednesday 9th September 2026 to Friday 11th December 2026 excluding the week of Monday 26th to 30th October 2026.

Changes to Traffic Management – Academic Year 2026/2027

From September 2026, there will be changes to traffic flow at the Main Cork Road Campus due to the commencement of construction works. Extra care should be taken on entrances/exits onto Paddy's Brown's Road due to increased construction traffic.

- The link road between the T&L Roundabout (at the AIB bank) to the car park entrance off Paddy Brown's Road will not be in use.
- Service Road will not be in use.

NOTE: Construction works will not not reduce the number of car parking spaces available on campus.

Speed Limit and Dangerous Driving

For the safety of all campus users, a maximum speed limit of **15 km/hour** applies on all roadways and within car parks.

Failure to comply with this speed limit, or engaging in dangerous driving, will result in enforcement action (including vehicle removal) and may lead to prohibition from using campus car parks.

Carpark Enforcement

The car parks are managed on Waterford Campuses by APCOA. Parking enforcement (i.e. clamping or vehicle removal) will apply to all motorised and electric vehicles and will happen in these situations are not limited to the list below:

- Parking on double yellow lines for any length of time.
- Not parking in a marked space i.e. between two white lines.
- Taking up more than one parking space.
- Parking in disabled parking spaces without a valid parking permit.
- Moving or removal of any fencing, bollards or blocking access to maintenance or other university activities.
- Blocking access on main campus roadways, or obstructing maintenance and university activities.
- Parking on service roadways.
- Parking in spaces designated for university use only.
- Parking on footpaths or grass areas.
- Dangerous driving (please note: this may result in prohibition from using campus car parks).
- Unauthorised parking, e.g. in visitor car parks or in general campus spaces by non-staff/non-student users.

Details about car park enforcement charges are displayed on signage in car parks as follows:

Car park enforcement is regulated by the National Transport Authority. For more information about regulations visit <https://www.nationaltransport.ie/vehicle-clamping-regulation/>.

All queries regarding clamping and any appeals must be raised directly with APCOA using the following modes of communication:

- For a clamp release Contact 0818 462888 or visit <https://www.apcoa.ie/> or <https://clamp-pay.apcoa.ie/>
- To appeal a clamp, once it has been paid for, this can be done online via following portal: <https://www.apcoa.ie/services/customer-support-services/appeal-clamp//>

Security

Security Personnel can be contacted at 087 9400888. Please note for clamping queries, contact details are above. In the case of an emergency please dial 999.
